navigation

Background image is changeable

Icons and Descriptions are changeable

Alice Junior is so easy to find your way around - just click on one of the icons to go to the function you require. Wherever you end up, you will find the same set of icons ready for your next decision. Every screen in Alice Junior allows easy navigation. You can also bring up a comprehensive menu and a 'favourites' list, to take you to places that you don't visit very often

searching

Alice Junior Inquiry Options... for children of all ages and abilities

Any machine on the school network can be set up to prefer one of the Alice Junior search options. Children can therefore use whatever method is best suited to their age and ability

grown up searches

NETWORK VERSION

For **a little extra*** you can get all the above, install Alice across the network and have the **Multimedia module** - allowing you to import borrower images and add photos and videos to the catalogue.

All the above can be paid for with e-learning credits.

Whenever you need help, just ring or email the Support Team. They'll talk you through whatever problem you are having and write simple instructions when life gets complicated. Softlink Support has a guaranteed response time, so we won't leave you bereft. Alice Junior can be set up to email the Support Team directly, straight from the menu. Technical Support can be reached by phone on **01993 883401** or via email at: support@softlink.co.uk

Easy Guides

Alice Junior documentation is in the form of Easy Guides. These straightforward, logical guides are 'how to' documents, which take you step-by-step through setup and operation of Alice Junior. No aimless rummaging around a reference manual is required because the guides show you what the screen should look like and what all the buttons and available options mean! Softlink is committed to writing more guides and so, if there's a function that you want more help with, we'll create a guide just for you!
